

CORE[®] M&T is a state-of-the-art, cloud-based training solution tailored to meet the unique needs of nuclear maintenance and technical teams. By combining foundational knowledge with discipline-specific training, CORE[®] M&T ensures compliance, enhances workforce readiness, and delivers flexible, high-quality learning experiences. Its cutting-edge approach equips your team with the knowledge and confidence they need to maintain operational excellence.

KEY FEATURES:

- **Discipline-Specific Training:** Tailored modules in Maintenance, Chemistry, and Radiation Protection (RP) ensure precise, targeted learning.
- **On-Demand Accessibility:** Training modules are available anytime, anywhere, accommodating varying schedules and minimizing downtime.
- **Blended Learning Approach:** Combines foundational theory with practical applications to maximize retention and applicability.
- **Interactive Simulations:** Realistic scenarios prepare trainees for hands-on tasks and operational challenges.
- **Comprehensive Curriculum:** Covers essential maintenance principles, safety protocols, and technical documentation practices.

DISTINCTIVE EDGE:

- **CORE[®] M&T distinguishes itself by offering a comprehensive training solution that balances flexibility with in-depth learning. Its adaptable modules and advanced training methods create a scalable platform that evolves with your operational needs, ensuring consistent, high-quality results across your organization.**

BENEFITS:

- **Regulatory Confidence:** Fully aligned with ACAD standards to meet and exceed industry compliance requirements.
- **Flexible Learning:** Self-paced modules empower trainees to learn at their own pace, fostering deeper engagement and comprehension.
- **Operational Excellence:** Builds a highly skilled workforce capable of performing critical maintenance tasks safely and efficiently.
- **Reduced Training Costs:** Minimizes reliance on expensive in-person sessions while maintaining high training standards.

COMPETITIVE ADVANTAGES:

- **Technology-Driven Learning:** CORE[®] M&T integrates modern training methodologies, including interactive content and simulations, to stay ahead of traditional methods.
- **Tailored for Nuclear Excellence:** Specifically designed to address the unique challenges of maintenance and technical teams in nuclear operations.
- **Expert Support:** Optional NEXA[®] services for exam generation and lesson facilitation.
- **Advanced Technology Integration:** Leverages the latest educational technologies to deliver an unparalleled learning experience.
