accelerant solutions

EXECUTION THAT DELIVERS. CAPABILITY THAT MATTERS.

Accelerant Solutions helps nuclear organizations design, implement, and sustain the initiatives that drive safe operations, regulatory compliance, and long-term performance.

CONNECTED ACROSS THE NUCLEAR ECOSYSTEM

Linking people, expertise, and solutions to accelerate success together.

GOVERNMENTS
Policy • Strategy • Investment

INDUSTRY ASSOCIATIONS
- Collaboration
- Insights
- Standards
- Advocacy

UTILITIES & PLANT OPERATORS
- Operations
- Training

WHERE WE MAKE THE GREATEST IMPACT

Helping nuclear organizations execute critical initiatives with confidence.

DEVELOP THE RIGHT PEOPLE

Build a skilled, confident workforce ready for today and tomorrow.

- Workforce strategy and planning
- Competency-based training programs
- Instructor development and Train-the-Trainer
- Blended learning, classroom, digital, and hands-on
- Qualification pathways
- Onboarding and time-to-proficiency acceleration
- Knowledge capture and transfer

OPTIMIZE OPERATIONS

Strengthen processes and systems to improve performance with confidence.

- Maintenance optimization
- Procedure development and revisions
- Technical documentation
- Outage planning and support
- Operational readiness
- Compliance, audits and assessments
- Performance improvement initiatives

PROVIDE EXPERT SUPPORT

Access experienced nuclear professionals when and where you need them most.

- Engineering
- Operations
- Maintenance
- Radiation Protection
- Chemistry
- QA / QC
- Project Management
- Training and Instructional Design
- Leadership and Technical Management

BUILD STRONGER PARTNERSHIPS

Work together to build local capability that lasts.

- Knowledge transfer
- Local workforce development
- Train-the-Trainer programs
- Establish regional training initiatives
- Supplement internal resources during periods of growth
- Support for new build and SMR programs
- Build local capability that endures

OUTCOMES OUR PARTNERS ACHIEVE

- Scale workforce capability faster
- Reduce time to competency
- Capture and transfer critical knowledge
- Supplement internal resources with experienced professionals
- Strengthen operational performance and reliability
- Maintain compliance, quality, and the highest safety standards

FLEXIBLE ENGAGEMENT MODELS

- Project-based technical support
- Workforce development partnerships
- Train-the-Trainer programs
- Resource augmentation
- Operational improvement initiatives
- Strategic collaboration with utilities, OEMs, and industry organizations
